

20 November 2007

To whom it may Concern

Gymcare has been our contractor of choice for the service & maintenance of our on site gymnasium equipment since 1999.

This long & ongoing tenure is probably the best testimony to their very capable abilities that I can offer.

Gymcare's knowledge and experience, as well as their consistently high level of service has been a pleasure to experience over the years.

They have helped us maintain a safe and fully functional fitness facility, whilst also reducing our long term maintenance and equipment replacement costs.

I have no hesitation whatsoever in recommending both Gymcare's product range as well as their after sales service to any other remote mining community within Australia.

Sincerely

Stephen Ball
Maintenance Superintendent
