

worksite fitness
and rehabilitation

To Whom It May Concern,

Worksite Fitness & Rehabilitation have been the leading providers of workplace health, fitness, injury and risk management services since our establishment in 1997. Our Healthy Lifestyle Program™ (HLP™) has been highly successful with both remote mining projects and corporate environments.

Onsite gym facility management is an integral part of our HLP™ and it is within this realm that Gymcare have proven to be a highly regarded and capable associate.

Their range of products & services matches with accuracy, the requirements that we come across every day on sites such as Lawlers, Granny Smith, Golden Grove and Pilbara Iron Yandi to name but a few!

Whether its upgrading old equipment, building a new facility from scratch, or providing regular visits for service, maintenance and safety checks, Gymcare always seem to be ahead of the game with their professional approach, and friendly helpful staff.

I will be maintaining WFR's great working relationship with Gymcare well into the future and would encourage any other workplace or mining project to do likewise if the desired outcome is a headache-free onsite fitness facility.

Yours sincerely,

Steve Gauci
Managing Director
